## LYNX 2027

# THE TOUGHER IT GETS THE BETTER IT FEELS. CRAZY? MAYBE. HAPPY? DEFINITELY.

Built tough for the deep snow, the roughest trails and the most demanding terrains. Lynx delivers performance with power, durability and pure thrills.

# 2027 WHAT'S NEW

## RAVE RE
### 20 YEARS. ONE CHAMPION.

New 600RR engine option and re-calibrated suspension for the roughest of trails. The 20th Anniversary edition of the trail legend is the most chased machine on the trails.

## SHREDDER RE 3700
### THE NEXT LEVEL OF FUN-FACTOR

Significant weight saving, improved deep snow performance and narrowed 34" ski stance. The renewed Shredder RE delivers fun-factor boosted to a new level!

## NEXT GENERATION PRO LINEUP
### PERFORMANCE BUILT FOR PROS

The 59 Ranger and the 69 Ranger enter a new era with the Radien$^2$ platform. The 49 Ranger gets the new Rotax 600RR E-TEC engine optione for more power and smoother performance. The PRO lineup is stronger than ever to get the job done.

## ROTAX® 600RR E-TEC
### MORE POWER, BETTER FUEL ECONOMY

The new leader in the 600cc class. 130 hp of power, better throttle response and improved oil and fuel efficiency. Available optional in Rave RE, Xterrain Limited, Shredder Core, 49 Ranger PRO and Commander Core packages.

## THE NEW GROUP RIDE FEATURE
### 10.25" TOUCHSCREEN DISPLAY WITH BRP CONNECT, FEATURING BUILT-IN GPS WITH GROUP RIDE

Now available in Europe! The Group Ride feature on the 10.25" Touchscreen lets you see friends and other vehicles on the map with no phone or cellular network. Perfect for group adventures on or off-trail.

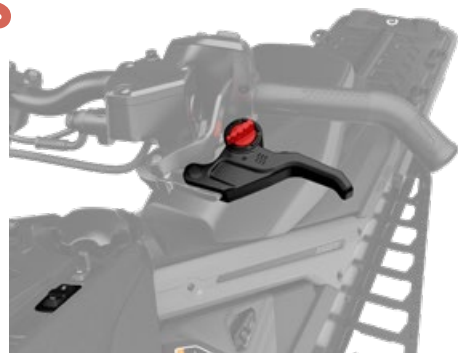
# NEW ACCESSORIES

### GPS MODULE WITH GROUP RIDE

Locate your friends and other vehicles around on the map without a phone connection or cellular network. The new Group Ride Feature is a perfect addition for group adventures on or off-trail, offering extra peace of mind in the backcountry.



### ADJUSTABLE HEATED BRAKE LEVER

3-position heated lever provides warmth in freezing weather. Toolless design adjusts easily with 6 increments. Shape and size is optimized for 1 or 2 fingers.

### LINQ 60 L SPORT UTILITY CARGO BOX

Maximize adventure with this versatile cargo solution. Use it as weather-resistant, lockable storage, or remove the lid instantly for taller loads. Mount extra LinQ accessories on top for added capacity. Internal tie-downs keep gear secure on any ride. Durable and adaptable without compromise.

# LYNX RAVE RE
# 20 YEARS OF TRAIL DOMINATION

RACING EDITION
20 YEARS ANNIVERSARY

**20 years ago, Lynx brought a race-winning sled from the track to the trails for everyday riders. Since then, the Rave RE has ruled the trails. The Rave RE 20th Anniversary Edition stands as a tribute to this legend.**

## THE LEGEND IS BORN

The first Lynx Rave RE, based on the factory racer Rave 440, brought Lynx's racing heritage straight to consumers. The Rotax 593 H.O. engine, PPS rear suspension, A-VRC front suspension, and adjustable KYB shocks delivered true race winning performance out of the box. Exceptional handling and performance made the Rave RE an instant success.

## 2009

## THE ERA OF REX AND E-TEC ENGINES

The Rave RE entered the new REX era, bringing a lightweight, completely redesigned chassis, fresh styling, and revolutionary engine technology. The Rotax 600 E-TEC elevated the comfort and fuel economy of 600cc engines to a new level. In 2012, the Rave RE got a longer 3270 mm track.

## REX² – THE WORLD'S FINEST SNOWMOBILE?

The REX² design introduced for the 2014 season, brought significant improvements to the Rave RE's riding ergonomics and wind protection. For the 2015 model year, the legendary PPS rear suspension was upgraded to the PPS² version.

**Read the whole article at BRPLynx.com**

## RADIEN – TOTAL REVAMP

The Rave RE received the advanced Radien platform in 2018 as Lynx celebrated its 50th anniversary. The Rotax 850 E-TEC pushed performance to a new level. Model year 2020 saw the introduction of the longer 3500 mm track and the debut of the shorter-track Rave Enduro specialty model. In 2022, the Rave RE got PPS$^3$ rear suspension and launched in North American markets. The model immediately gained massive popularity across the pond, with respected SnowTrax TV naming the Rave RE Snowmobile of the Year.

## RADIEN$^2$ – ALL-NEW TECHNOLOGY. CORE UNCHANGED.

The Rave RE moved to the Radien$^2$ design, designed for active riding. This evolution brought improved rider ergonomics, a powerful four-piston brake, a modern 10.25” touchscreen display, and powerful LED headlights. For the 2026 model year, the Rave RE received LFS-R front suspension and the 180-horsepower Rotax 850 E-TEC Turbo R engine option.

**In the 2027 season, we celebrate the 20th anniversary of this iconic trail sport sled. The special anniversary edition features a unique color scheme inspired by the original 2007 Rave RE model, a completely new Rotax 600RR E-TEC engine option and shock calibration optimized for even more aggressive riding.**

# RAVE
## TRAIL

Built with pure racing pedigree.
Lynx Rave is a genuine trail sport snowmobile. Its features, specially designed for harsh Nordic conditions, make it superior on racetracks and demanding trails.
